

Locations

Apartments, town houses, warehouses, historic houses, offices, churches. From old favourites to unique properties we can help find the right location for your project.

Whatever your production, our team of Location Co-ordinators can find and organise your location quickly and with the minimum of fuss. Our location scouts and location managers are highly experienced in film, photography, television and events suitable for whatever size your production.

Take the stress out of finding your location by providing us with your requirements, book a One-on-One meeting to discuss exactly what your needs are or email us with your needs and budget and we'll find the location to best suit your project.
